

HOPE FOR THE CITY
SATURDAY, FEBRUARY 2, 2019
9:00 AM TO 12:00 PM
316 Summerlea Dr. Columbia, SC

Front yard

- Not much to do but I may have overlooked something

Back yard

- Remove vines growing on rear of house
- Prune bushes in backyard (just a few bushes)
- Weed eat along house and fence perimeter
- Remove rocks and debris from backyard (Michele Moseley knows locations)
- Cut grass/Rake clippings/Bag or transport clippings to road (This is the biggest job)
- Replace chain link fence top rail in backyard (2 sections) (if someone feels extra ambitious)
- Repair/rig door to under house storage area (currently off hinges)
- Remove antenna installed on chimney

Inside

- Clean out debris on back porch
- Remove carpet tack strips from back bedroom
- Interior could really use a dehumidifier if anyone has one available
- Overall, not much needed on inside but I may have overlooked something

Tools and Materials I can think of: Wheelbarrows, weed eaters, mowers, ladders, trash bags, pruner, gloves
