## VI. Prophetic and Apocalyptic Literature

- A. Interpreting the prophets
  1. Discern the immediate context –structure and flow
  2. Discern the kind of oracle employed (judgment, salvation, or something else).
  3. Study the balance between forth-telling and foretelling
  4. Determine what kind of language is being used (Poetic? Disputation? Narrative?) Literary forms are often crucial in determining the author's meaning and intent.
  5. Place these texts in their overall place in redemptive-history. In doing this, be careful not to make wrong associations between Israel and your nation or church.
  6. Try not to impose your theological system on the text (whether dispensational, covenantal, etc.).
  7. Be alert for certain reoccurring and sweeping themes, especially those that bear on the relationships between the testaments (e.g. eschatology, temple, marriage and spiritual adultery, new birth).
  8. Consider how the New Testament authors employ your passage, or at least your book.
