

Gospel Partners Community Group Study

Winter/Spring 2018

Overview: While we cover Philippians in our Sunday preaching our corresponding CG study will be based on Paul's concept of being "partners in the gospel" (1:5). We'll explore the basis of gospel partnership in the first two lessons, then from there we'll look at the aspects of walking together in gospel partnership in daily life. This isn't a comprehensive study of gospel partnership but it will help our church see some key aspects.

Note: We're providing curriculum for 2 meetings per month but if your group is meeting more frequently here are some ideas for how to handle those meetings:

- Simply have a meal and build relationships
- Devote a meeting to group prayer needs
- Split up and have the men and women meet separately and share prayer needs
- Do something to serve your neighborhood, someone in the group, or someone outside the church
