

# DISCUSSION GUIDE

## *sunday school module four*

### MODULE 4: FALL - BROKEN

#### DISCOVER (PRE-WORK)

Review pages 6-10 in the Module 4 Resource, found here:  
[www.doxa-church.com/sundayschool](http://www.doxa-church.com/sundayschool)

#### NURTURE

1. Overcoming sin won't happen on accident, it requires a plan of attack. Do you have a plan for overcoming particular sins in your life?
2. The first step of Pastor Justin's plan for overcoming sin is to "cultivate the good". How do you cultivate the truth of the gospel in your life?
3. The second step in the process is to repent of both the sins themselves and the opportunities for temptation that you have allowed yourself to walk into. Identify both the sins and the tempting circumstances to your DNA partners.
4. The last step in the process is to turn from your sin and towards the truth and life. What are the truths that Satan has tried to obscure from your view while he tempts you to sin?

#### ACT

1. Choose a particular sin that you struggle with and apply the plan to that sin this week. Report back to your DNA partners next week.
2. What truths do you need to cultivate in your heart to overcome the temptations to sin that you experience?
3. What is your plan to avoid the situations and circumstances that you know create tempting situations for you?
4. How can your DNA partners help you remember to turn to the truth of the Gospel? Daily reminders? Accountability? Weekly consistency?
