

## **Charis Café' Ladies' Craft Night Wreath Making Supplies**

### **1. Grapevine wreath**

I like to get this at Wal-Mart or Hobby Lobby. Just be sure to have your 40% off coupon ready if you go to Hobby Lobby. Also remember that the bigger the wreath the more flowers/ribbon/pretties you will want to fill it.

### **2. Greenery to fill your wreath**

Watch for flower stems to be 50% off at Hobby Lobby or purchase from the "spring and summer" stems that are typically on sale every week. Look for green stems. I love some of the ferns and eucalyptus...I try to find greenery that looks a bit more natural. I usually buy 2-3 different kinds of greenery.

### **3. Pick out 3-5 Feature Flowers**

I usually choose 3-5 larger flowers that I want to build the rest of my wreath around. Look for spring colors and try to choose colors that you would see in nature if you want your wreath to look more natural.

### **4. Pick out 2-3 Filler Flowers**

These flowers generally have multiple flowers to a stem and they are smaller and more delicate than your feature flowers. You will use these flowers to fill in the gaps in your wreath where needed.

### **5. Miscellaneous**

Sometimes I like to add little things to my wreaths like a small nest, bird, an initial letter, a word, anything pretty that you think would go well in your wreath.

### **6. RIBBON**

Watch for this to be 50% off at Hobby Lobby. They never have floral stems and ribbon 50% off at the same time. They rotate weeks. So, when the floral stems are on sale the ribbon is not, but the next week, the ribbon is on sale and the floral stems are not. You can also buy floral ribbon at Wal-Mart. I would look for spring and summer colors. I like to have 2-3 ribbons, but 1 is fine as well.

### **7. Hot Glue Gun and Glue Gun Sticks**

Pinterest is a great place to get an idea of what you like. Look up "spring wreath" or "summer wreath". I hope this list helps and if you have any questions please feel free to ask me! I'm so excited to make pretty wreaths with you all!
