

**LEARN**

Read 1 John 1:1-7 together. What stands out from the text and what encouraged/challenged you from Sunday's sermon?

Where does Biblical community start and why is this important for us to understand?

What are some of the ways "fellowship" is misunderstood by people? What are 2-3 real, tangible examples of how biblical fellowship should operate within a small group?

**PRACTICE**

How does the quality of your own relationship with God impact the quality of your relationship with your church community?

As a group, discuss: Are there ways our small group can grow in deeper, biblical community together? What may need to change (start or stop happening) to accomplish this more?

**CHANGE**

How is your relationship with God? Take a moment evaluate the depth (or lack thereof) in your relationship with God and share that with one another. Then, pray as a group of men/women for deeper walks with God and one another to his glory.
