

Worship Facilitator

Worship Facilitator:

Singing together to the Lord is a great way to grow together as a group. While this element of small group meetings is not required, it is encouraged when possible. This person has a passion for worship through song and a capability to lead the group in singing together.

The Worship Facilitator:

- Has a good handle on playing an instrument that people can sing with, which would usually be an acoustic guitar or a piano (if one is in the home)
- Selects the songs to be sung from the list of songs Harvest provides to all small groups that are reasonably well known to our church. This promotes participation.
- Prepares ahead of time by practicing on their own in order to lead the group in song
