We currently have a Fatherhood Mentorship Program for incarcerated dads in Calvert County and we are planning to start one in St. Mary's County as well. According to the U.S. Census Bureau, 24 million children in America – one out of three – live without their biological father in the home. This means there is a father factor in nearly all of the societal ills facing America today. Research shows when a child is raised in a father-absent home, he or she is affected in many ways. Children are more likely to have behavioral problems, more likely to abuse drugs and alcohol, two times more likely to suffer obesity, and two times more likely to drop out of high school... and more. YOU can be a part of the solution. If you are interested in being a part of this life-changing program, please call us at 301-737-4604.
