

# Missio Kids Wellness Policy

**To maintain the health and wellness of all our children, families, and volunteers:**

If your child has had a fever, vomiting or diarrhea, he/she should be **completely symptom free for a minimum of 24-48 hours** before attending church. If your child has a bacterial infection (for example – strep throat), he/she **must be on antibiotics for a complete 24 hours** before attending church. This significantly limits the spread of illness. Frequent and thorough handwashing is THE BEST way to protect oneself from sickness. However, we ask that all of our families continue to show kindness and discernment when deciding whether or not to bring children who have recently been affected by illness to Missio Kids. We ask that volunteers follow the same guidelines when scheduled to serve in Missio Kids.

If you are unable to fill your scheduled service due to illness of yourself and/or that of your child, please **contact your team leader as soon as possible** so a replacement volunteer can be found.

The Missio Kids Leadership Team thanks you in advance for your cooperation!
