Missions Financial Support Application

The missions committee at Spruce Creek Presbyterian Church receives and reviews all financial support applications for both short-term missions trips, and long term (career) missions assignments. The completion of this application is the first step toward a partnership with SCPCA. Although all applications will be reviewed and assessed during bi-monthly missions committee meetings, in the case of *long term* (career) missions requests, we are only able to definitively assess the viability of undertaking a financial commitment at the conclusion of our fiscal year, which runs January 1 – December 31. Budget planning for the next fiscal year usually begins at the beginning of November, and concludes at the beginning of December. Thus, we are unable to review any applications submitted in December for the following fiscal year. Short-term missions requests allow for more flexibility, and finances may be allotted in the middle of a fiscal year for the same fiscal year. However, it is optimal for short-term requests to be made in advance of financial planning for the following fiscal year.

After completing the missions financial support application, you can expect the missions committee to review your application and for the missions chair to make contact with you after it is reviewed. Thank you for your interest in partnering with Spruce Creek Presbyterian Church (PCA). If you have any additional questions, you may contact the missions chair through the church office at scpca@cfl.rr.com.
