PURCHASED GAS COST ADJUSTMENT PROVISIONS

The service rates prescribed above are subject to an adjustment for any change in the average cost of gas purchased by Columbia Gas of Ohio, Inc., (Company) from all sources of supply, and are predicated upon the average cost of gas purchased by the Company of 48.19¢ per one thousand cubic feet. This rate is hereinafter referred to as the "base average rate". All purchased gas adjustments subsequent to February 9, 1971, will apply immediately upon the effective date of these Purchased Gas Cost Adjustment Provisions.

**A. Purchased Gas Adjustment**

**(1) Semi-Annual Adjustments Effective With Bills Rendered On or About April 1 and October 1 of Each Year**

Based on volumes purchased during the twelve billing months ended January and July of each year the Company shall determine the current average cost of gas purchased and such "adjusted average rate" shall be compared to the base average rate stated above to determine the increase or decrease per one thousand (1,000) cubic feet to the nearest one-hundredth of a cent. This shall be the "purchased gas adjustment" that will apply effective with bills rendered on or about April 1 and October 1 respectively. If, during the twelve-month period under consideration, the Company has commenced purchasing gas under new contracts or has made significant changes in its purchases from existing suppliers and the effects of these changes in sources of supply have not been in effect for the full twelve-month period, then the Company will adjust the actual volumes purchased during such twelve-month period to reflect the effects of such change in source of supply for a full twelve-month period. The adjustment on or about April 1 will be based on the twelve-month billing period ended January of the same year utilizing supplier rates in effect on the following March 1 of that year. The adjustment on or about October 1 will be based on the twelve-month billing period ended July of the same year utilizing supplier rates in effect on the following September 1 of that year.

**(2) Interim Adjustments**

If in the intervening period between semi-annual adjustments there is a significant change in source of supply or in supplier rates, the effect of which is to produce an increase or decrease in the adjusted average rate by at least one cent (1¢) per one thousand (1,000) cubic feet, then a new adjusted average rate shall be determined utilizing the most recently available twelve months of gas purchased adjusted to reflect changes in source of supply. The current or new supplier rates will be applied to these volumes to determine the new adjusted average rate and the difference between this new adjusted average rate and the base average rate, to the nearest one-hundredth of a cent per one thousand (1,000) cubic feet, shall be the purchased gas adjustment effective with bills rendered on and after the 30th day following the date on which the change in source of supply or supplier rates was first reflected in billings to the Company, or the 30th day following the filing of notice by the Company, whichever date is later.

**B. Actual Cost Adjustment and Refunds**

The purpose of this section is to provide fuel cost clause coverage for cost increases or cost decreases not covered in Section A, above. It is intended that minor cost changes of less than one cent (1¢) per one thousand (1,000) cubic feet be temporarily deferred until the next regular semi-annual fuel cost clause adjustment and that such deferred cost increases or decreases shall then be recovered or paid back over the next six (6) month period. This section shall not operate so as to duplicate any cost recovery made pursuant to Section A, above.

The Company will maintain a continuing cumulated balance of monthly comparisons of the actual total Company cost of gas purchased as shown on the books and records of the Company exclusive of refunds; and the total Company cost of gas purchased for the same month priced at the average rate used to determine the purchased gas adjustment applied to service rates pursuant to Section A of this fuel cost clause. Such cumulated balance will be reduced to reflect the effect of the applicable Actual Cost Adjustment in effect for that month applied to total Company volumes purchased for that month.

For each six (6) month billing period ended January and July subsequent to March 31, 1974, an "Actual Cost Adjustment" will be determined by dividing the cumulated balance as of that date by total volumes purchased during the six (6) month period ended on that date. This adjustment will be rounded to the nearest one-hundredth of a cent to determine the increase or decrease per one thousand (1,000) cubic feet. The January calculation will be effective on or about April 1 and will remain in effect until superseded by the July calculation which will be in effect on or about October 1.

If, during the six (6) months under consideration, the Company shall have received a refund or refunds from its suppliers; such refunds, including interest received, shall be listed separately and included as a deduction from the cumulated balance used to determine the Actual Cost Adjustment pursuant to this Section B.

### C. General Provisions

(1) The penalty provisions of Columbia Gas Transmission Corporation's (Transmission's) FPC Gas Tariff shall not apply to Sections A and B of this fuel cost clause and any Transmission penalty charges or rate adjustments made pursuant to such penalty provisions shall not be used to determine an adjustment pursuant to this fuel cost clause.

(2) The Company shall file with the Public Utilities Commission of Ohio and the Clerk of Council of the Municipality thirty (30) days prior to the effective date, computations in support of the above fuel cost clause adjustments together with a notice that the adjustments will be placed in effect as of 12:01 A.M. on the effective date. SECTION 3: The terms and conditions of the service to be rendered shall conform with and be subject to the Rules and Regulations for furnishing gas service of the Company on file with and approved by the Public Utilities Commission of Ohio.

SECTION 4: That the gas furnished or delivered pursuant to the terms of this ordinance, by the said Company, shall have an average heating value of 1,000 British thermal units per cubic foot for any consecutive twelve (12) month period subject to a variance of not more than five (5) percent upward or downward.

SECTION 5: That any ordinance or resolution, or part of an ordinance or resolution, inconsistent herewith, is, to the extent of such inconsistency, hereby repealed.

SECTION 6: That should any section or part of a section or provision of a section of this ordinance be declared void, the remainder of this ordinance shall not be affected thereby.

SECTION 7: That this ordinance shall become effective at the earliest date allowed by law; provided, however, that this ordinance shall have no force or effect whatsoever unless written acceptance of this ordinance is filed by the Company with the Clerk of Council of the City of Oberlin, Ohio, prior to the expiration of thirty (30) days from the date this ordinance is passed.
