GIVE A BRIEF DESCRIPTION OF THE EXTENT OF THE PROJECT:

.....

• • •

- The City Engineer's Office must be notified a minimum of 2 hours prior to starting all pavement repairs so an inspector may observe the placement of the new patch material. Failure to notify the City Engineer's office shall result in the removal and replacement of such material. Hours for this inspection are during regular business hours.
- The contractor must also notify Central Alarm at 812-246-0357 of the location of the cut, when work will begin and end and if the road will be completely closed.
