THINK BEFORE YOU FLUSH

Improper disposal of personal, household and industrial materials can clog pipes, leading to sewage backups and overflows that not only damage your home and the environment, but also cause damage to public utilities, resulting in costly repairs.

NEVER Flush THESE ITEMS:

- Tampons & maxi pads
- Diapers
- Disposable razors & blades
- Grease & cooking oil
- Needles & syringes
- Baby wipes, facial wipes, wet wipes & household cleaning wipes
- Paper towels
- Dental floss
- Q-tips & cotton balls
- Condoms
- Hair balls & clippings
- Cigarette butts
- Kitty litter

The ONLY things you should flush are human waste and toilet paper.
