

# Trex® Outdoor Lighting™

## SOLAR POST CAP LIGHTS

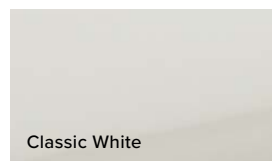

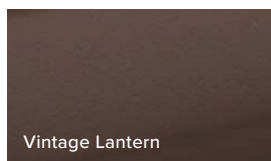

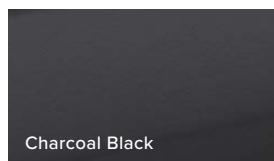

### SEE YOUR OUTDOOR SPACE IN A WHOLE NEW LIGHT

Powered by the sun, the Trex Solar Post Cap Lights add effortless ambiance to your outdoor space. Simply press the power button on the underside of the post cap and place it on top of any Trex composite 4x4 post sleeve. Your solar post cap can shine as long as 19 hours with ample lighting conditions – no timers needed. Available in three colors to match our most popular railings.

- No wiring (easy upgrade to any deck that already has composite posts, easy finishing touch to a current deck build)
- Longer run time than most solar caps on the market
- Better for the environment
- Perfect color match with all Trex composite railing lines

#### AVAILABLE COLORS

#### WHY TREX

Won't rot, warp or splinter

Needs no seasonal upkeep

Sustainably manufactured

Cleans easily with soap and water
