SUMMARY

I am a freelance writer, journalist, and online media content creator. My typical beat includes environmental science and policy, energy and sustainable development, economics and Triple Bottom Line business.

I publish my own blogs through TDS Environmental Media.

WHAT I DO

I help individuals, businesses, organizations, and non-profits communicate their message to a receptive audience.

WHY IT MATTERS

We are a storytelling species. The stories we tell shape our collective reality. And we all have a voice in telling the story of our future.

WHAT OTHERS SAY

- "A nice piece. Well argued."
- *William Hoffman*
- "I've known you so long as a writer... I am just loving this new direction. Your writing has a simplicity, clarity and humor lately that really suits you!"
- *Jennifer Boynton*
- "In addition to being incredibly down to earth, Tom is extremely knowledgeable about a broad range of environmental issues and can communicate his points clearly and effectively. We've worked together now on several different media sites and he is always professional and dependable. He has always been a pleasure to collaborate with, and I would without hesitation recommend Tom to anyone looking for an expert on environmental issues."
- *Chase Ezell*
