

Domino Flash

Material:

- ◆ RedBlue Dot Cards
- ◆ Domino Flash board
- ◆ 2 screens

Directions:

1. On the domino board, place the RedBlue Dot Cards (blue on the right side and red on the left) with numerals faceup. Cover with screens.
2. Player A flashes the screens to see what is on each card.
3. Player A and Player B will determine and state how many total dots are on the back of the cards.
4. If players do not agree, they share their strategy.
5. If still not in agreement on total, players can check for the total by turning over the cards and counting the dots.
6. If Player A is correct, they keep the cards. If not correct, the cards are placed in a discard pile.
7. Player B takes a turn.
8. The player who gets 10 cards first, wins.
