
Clear the Field: Addition

Material:

- ◆ Set of numeral cards 1-10 (one set per student)
- ◆ Two 6-sided custom dice (0-5)

Directions:

1. Each player lays out their cards face up in order 1-10.
2. Player A rolls the dice and combines them to find the sum.
3. Player A finds the card that matches that sum and turns it face down. If that number is already turned over, Player A can find two other numbers that combine to equal that sum.
4. Player B takes their turn.
5. If a player rolls and there are no cards they can turn, play ends and the next player takes a turn.
6. Play continues until a player clears their board.
