As a freelance website designer and developer, I have assisted both individual and corporate clients throughout the New Mexico area. I have used Wordpress, the LAMP stack as well as the MEAN stack to create functional and visually pleasing websites.

Objective

- Specialize in web development, automation and marketing.
- Looking to work for a company which has clear communication and direction.
- Seeking a challenging position to utilize current skills within an innovative, growth-oriented company.

Technical Skills

LAMP Stack: PHP, MySQL, Linux, Apache, PHPUnit

Front End Development: HTML5, CSS3, Twitter Bootstrap, Angular 4+, Javascript, JQuery, AJAX, React Native, Vue.js, PrimeNG

Back End Development: Python, Node, Ruby, Go

Cloud: AWS S3, Lambda, Route53, API Gateway, EC2, IAM, etc; Google Firebase, Compute, Auth; Azure Functions, CosmosDB

MEAN Stack: JSON, NodeJS, ExpressJS, MongoDB, Mongoose

Marketing & Analytics: Google Analytics, Facebook Ads, Google AdWords, SEO, Leadpages & multiple email newsletter platforms such as Aweber, Constant Contact, Mail Chimp, etc.
