# Multiple Sclerosis – How to Apply the McDonald Criteria

## #1 Video lecture:

The Science and Strategies Behind Successful MS Diagnosis

## #2 Case studies:

Do These Patients Have MS? Case Studies in Applying the 2017 McDonald Criteria

## Target Audience

Neurology clinicians involved in the diagnosis of patients with multiple sclerosis (MS), including physicians, physician assistants (PAs), nurse practitioners (NPs), and nurses

## Learning Objectives

At the conclusion of this activity, participants should be better able to:

- Describe the clinical features, imaging findings, and laboratory results that support and that do not support a diagnosis of multiple sclerosis (MS).
- Detail the key components of the 2017 revisions to the McDonald criteria, and when and how those criteria should be employed in assessing patients for MS.
- Outline an evaluation strategy for correctly diagnosing MS.

## Faculty

Ilya Kister, MD  
Associate Professor of Neurology  
NYU Medical Center  
New York, NY

Stephen Krieger, MD  
Associate Professor of Neurology  
Corinne Goldsmith Dickinson  
Center for MS  
Director, Neurology Residency Program  
Icahn School of Medicine at Mount Sinai  
New York, NY

Andrew J. Solomon, MD  
Associate Professor of Neurological  
Sciences  
Division Chief Multiple Sclerosis  
University of Vermont  
Burlington, VT
