

SIGNED. SEALED. DELIVERED!

Now, connected GE Appliances Dishwashers will automatically order your dishwashing pods—so you'll never run out!

HOW IT WORKS:

Amazon Dash Replenishment is the key.

Download the GE Kitchen app, and link it to your connected dishwasher and Amazon account.

Set your preferences for detergent brand, pack size and reorder level.

Input how many pods you have on hand.

Wash, rinse, repeat! Run your dishwasher like normal. Your dishwashing pods will arrive before you ever run out.

GE APPLIANCES:

- Makes the first dishwasher launched with Dash Replenishment.
- Is the first U.S. appliance manufacturer to have products from multiple appliance categories integrated with Dash Replenishment.

amazondash
Replenishment

Amazon Dash Replenishment enables connected devices to automatically reorder physical goods from Amazon when supplies are running low.
