

MASERATI AND HARMAN KARDON: PARTNERS IN SOUND.

Thanks to the Harman Kardon and Maserati sound partnership since 2015, an audio system by Harman Kardon is now available for all models. Both brands share a history of excellence and technical innovation and therefore drivers and passengers experience the engine's sonorous note as well as a premium sound system with perfectly balanced tones. The speaker setup is arranged by Harman Kardon and Maserati engineers in close alignment and creates a lifelike center-stage experience for all passengers at every position – a sound that you surrender to.

CUSTOMIZED PREMIUM SOUND

The components of the Harman Kardon Premium Sound System are individually developed, acoustically tuned and optimized for each vehicle cabin. This perfect match results from cooperation between Harman Kardon engineers and the product development team from Maserati, as both teams learn about the specifics of the car models and their respective materials from the start.

BALANCED DYNAMICS MEET POWERFUL EFFICIENCY

The Harman Kardon sound experience for Maserati instantly scans all types of compressed audio files and intelligently corrects any deficiencies detected. Up to 14 different speakers are positioned at key locations throughout the car to allow for precise dynamics and excellent sound balance. In addition, the 12-channel Class-D amplifier with a total output of up to 900 watts impresses with distortion-free and high performance playback.

DESIGN INTEGRATION

The elegant and sophisticated design of the Harman Kardon Premium Sound System perfectly matches the exclusive luxury of a Maserati's interior. The refined quality of Harman Kardon materials complements the timeless aura of each Maserati model.

The Harman Kardon Premium Sound System comes as factory standard on the Maserati Quattroporte, GranTurismo, and GranCabrio, as well as an option on the Maserati Levante and Maserati Ghibli.
