by HARMAN

MADE TO ASTOUND.

The Mark Levinson N° 5805 integrated amplifier was created to harness decades of superlative audio engineering and the latest technological advancements to deliver unmatched performance and value.

With fully discrete, direct-coupled, dual-monaural Class A pre-amp circuitry, PrecisionLink II™ DAC, MainDrive™ Class A headphone power, and 125WPC of potent Class AB amplification, the N° 5805 celebrates its iconic lineage.

A bold new industrial design, PurePath circuitry, and MM/MC phono stage, combined with DSD, AptXHD Bluetooth and MQA playback give the N° 5805 a powerful new voice. An internal webpage, IP control, RS232, control system drivers and a sleek custom remote convey a modern attitude. Renowned Mark Levinson fidelity. Indulgent luxury. Made to astound.

Proudly designed, engineered, and precision crafted in the USA.
