San Onofre Decommissioning Update Community Engagement Panel Meeting Edition November 29, 2018

- **Enhancements to Community Engagement**
- **Decommissioning Plan Update**

San Onofre Community Engagement Enhancements – Over nearly five years, SCE and the CEP have experimented with different ways to improve community engagement. In the spirit of continuous improvement, we are taking a fresh look at the many forms of stakeholder engagement with respect to SONGS decommissioning. Moving forward, standard decommissioning updates will now be provided in hard copy format. Such updates – including this one – will be distributed at Community Engagement Panel Meetings and made available online at SONGScommunity.com. This will help abbreviate time dedicated to routine topics and will allow for more in-depth exploration of matters of interest to local communities. In addition, in between CEP meetings, periodic decommissioning updates will be provided to CEP members and posted on SONGScommunity.com.

We are also exploring better ways to facilitate public dialogue during CEP meetings and ensure questions are being answered. Some enhancements include:

- Invitation to submit questions in advance of CEP meetings via SONGScommunity.com
- We at SCE will do our best to provide answers during the meetings
- During meetings, use the new question and comment cards vs. sign-up sheet
- Questions will be categorized and addressed

Other enhancements to engagement and communication include:

- Issue papers on emergent topics
- Frequently Asked Questions (FAQs) maintained and posted to SONGScommunity.com
- Interactive features on the website for topics such as Defense-In-Depth for on-site used fuel storage to make information easier to locate

SONGS Decommissioning Plan:

Interested in Taking a Tour of San Onofre or Hosting a Speaker about Decommissioning?

We are happy to give you a tour of our facility and explain the decommissioning process. We also can send a speaker to your community meeting. Additional information is available at SONGScommunity.com.
