Subject: (External):Dave Lochbaum analysis of the canister downloading incident at SONGS
Attachments: 20180813-songs-ucs-dry-cask-transfer-event[2].pdf

Dear Colleagues

Early this morning Dave Lochbaum at the Union for Concerned Scientists shared with me his independent analysis (reported in a 39 slide deck, attached) of the incident at the plant that has been much in the news since our CEP meeting. Slide 39 has a helpful one-page summary.

It is my understanding that several groups and individuals have been talking with Dave about the same in recent days. Struck me as helpful to distribute all the information to the full CEP.

It is my understanding that Edison will be sharing with us some statements today or tomorrow. Meanwhile, a well-reported piece in the LA Times a few days ago will be of interest:
http://www.latimes.com/local/lanow/la-me-ln-san-onofre-plant-20180812-story.html

All best

David
