San Onofre Nuclear Generating Station
Monthly Spent Fuel Progress Report #23
November 1, 2019

Reporting Period: Through October 20, 2019

SCE provides this monthly progress report on the storage of SONGS Units 2 and 3 spent fuel¹ in
accordance with the August 2017 Settlement Agreement resolving the case Citizens Oversight,

Unit 2

Number of Fuel Assemblies in Spent Fuel Pool: 578 Fuel Assemblies
Number of Fuel Assemblies in Process²: 0 Fuel Assemblies
Number of Holtec MPC-37 Canisters in Process: 0 Canisters
Number of Fuel Assemblies on ISFSI Pad³: 740 Fuel Assemblies
Number of Holtec MPC-37 Canisters on ISFSI Pad: 20 Canisters

Unit 3

Number of Fuel Assemblies in Spent Fuel Pool: 721 Fuel Assemblies
Number of Fuel Assemblies in Process: 37 Fuel Assemblies
Number of Holtec MPC-37 Canisters in Process: 1 Canisters
Number of Fuel Assemblies on ISFSI Pad: 592 Fuel Assemblies
Number of Holtec MPC-37 Canisters on ISFSI Pad: 16 Canisters

NOTES:

¹ This report accounts for the 2668 spent fuel assemblies that were in “wet” storage (i.e., spent fuel pools) at the
time of the August 2017 settlement. It does not report on the 1187 fuel assemblies in 50 canisters (Areva NUHOMS
24PT1 and Areva NUHOMS 24PT4) that were already in dry storage at SONGS at the time of the August 2017
settlement.

² “In Process” refers to Holtec MPC-37 Dry Storage Canisters (DSC) that have begun but not yet completed fuel
transfer operations. These DSCs are either waiting to be moved to the expanded Independent Spent Fuel Storage
Installation (ISFSI) or are in transit to the expanded ISFSI.

³ “On ISFSI Pad” refers DSCs that have been placed into the expanded ISFSI’s Holtec HI-STORM UMAX system for
interim on-site storage (i.e., all fuel transfer operations are complete).
