

Definitions of MH RRTPs

MH RRTP provides residential rehabilitative and clinical care to eligible Veterans who have a wide range of problems, illnesses, or rehabilitative care needs which can be mental health, SUD, co-morbid medical, homelessness, vocational, educational, or social. The term MH RRTP refers to the bed category and includes the following models:

a. **Domiciliary Residential Rehabilitation Treatment Programs (DRRTP).**

A DRRTP provides a residential level of care for Veteran populations including medical, psychiatric, SUD, PTSD, and homelessness. DRRTPs provide a 24-hours-per-day, 7 days-per-week, (24/7) structured and supportive residential environment as a part of the rehabilitative treatment regime. DRRTPs are larger residential programs with multiple units serving various patient populations.

- ❖ Health Maintenance Domiciliary are found in some DRRTPs. They provide a residential level of care for Veteran populations including medical, psychiatric, SUD, PTSD, and homelessness. Health Maintenance Domiciliary beds provide a structured and supportive residential environment 24/7 as a part of the rehabilitative treatment regime. Health Maintenance Domiciliary beds focus on symptom reduction and stabilization as part of the rehabilitative approach to facilitating community integration.

b. **Domiciliary Care for Homeless Veterans (DCHV).** A DCHV provides a residential level of care for a homeless Veteran population. DCHVs provide a 24/7 structured and supportive residential environment as a part of the rehabilitative treatment regime.

c. **Domiciliary PTSD (Dom PTSD).** These programs provide a residential level of care to Veterans with PTSD including Military Sexual Trauma (MST). Dom PTSD provides a 24/7 structured and supportive residential environment as a part of the PTSD rehabilitative treatment regime.

d. **Domiciliary SA (Dom SA).** These programs provide a residential level of care to Veterans with Substance Use Disorders. NOTE: SUDs encompass the family of alcohol and other drug-use illnesses that meet diagnostic criteria according to the Diagnostic and Statistical Manual of Mental Disorders, (DSM-5). Dom SA provide a 24/7 structured and supportive residential environment as a part of the SUD rehabilitative treatment regime.

e. **Compensated Work Therapy (CWT)-Transitional Residence (TR).** A general CWT-TR is not targeted exclusively for any particular mental health population and provides TR services. General CWT-TR offers therapeutic work-based residential rehabilitation services designed to facilitate successful community reintegration.
