

Fix A Leak this Spring

Household leaks are more common than you think. Worn toilet flappers, dripping faucets, and other leaking valves are all easy to fix and can lower your water bill. Cobb County Water System encourages you to check for leaks in your home and replace fixtures with WaterSense labeled models. Leaks may sometimes be hard to see or hear. Check out our video on “sneaky leaks” to learn how to read your meter and identify if you have a leak: <https://tinyurl.com/mu2uzz88>

Cobb Water also offers a \$100 rebate for the purchase and installation of a Flume Smart Home Water Monitor. During Fix a Leak Week, March 18-24, 2024, Flume is offering a \$10 off discount on Flume purchases, making your out-of-pocket cost \$89. For more information on leaks and the Flume rebate program, visit www.cobbcounty.org/water/leaks.
