Press Release

Information on Sewer Overflow

Cobb County, GA - Feb 17, 2025

Pursuant to the rules and Regulations for Water Quality Control, Chapter 391-3-6-05, the Georgia Environmental Protection Division now requires all publicly owned wastewater treatment works that discharge to the waters of the State to provide information on sewer overflows to local media contacts as part of ongoing, comprehensive public education and awareness efforts.

A wastewater overflow occurred on: February 17, 2025
Location of overflow: 2932 CANTON RD NE, MARIETTA, GA 30066
This overflow resulted from: GREASE
Resulting in a wastewater discharge into: TRIBUTARY TO LITTLE NOONDAY CREEK
The volume of the overflow was estimated at: 110 Gallons
The Water System was notified at: Feb 17, 2025, 10:15 AM
The overflow was stopped at: Feb 17, 2025, 11:10 AM

Corrective action taken to reduce effects of the overflow include the following:

After using the jet machine to unstop the sewer line, the crew cleaned rags out of the sewer line and spread enzymes on the affected area.

Field Observation:

Upon arrival, the crew observed MH# 309-C026B spilling with a secured lid. The escaping sewage left a 5-foot by 5-foot trail, entering into a storm drain that empties into a tributary to Little Noonday Creek. After unstopping the sewer line, the crew walked the waterway and observed slight gray discoloration. No fish kills were observed during the time on-site.

For more information on this notification, contact our System Maintenance Division Monday - Friday, 7:00 a.m. to 3:30 p.m. at 770-419-6351.
