Press Release

Information on Sewer Overflow

Cobb County, GA - Mar 26, 2025

Pursuant to the rules and Regulations for Water Quality Control, Chapter 391-3-6-05, the Georgia Environmental Protection Division now requires all publicly owned wastewater treatment works that discharge to the waters of the State to provide information on sewer overflows to local media contacts as part of ongoing, comprehensive public education and awareness efforts.

A wastewater overflow occurred on: March 25, 2025
Location of overflow: 3524 OLD SUTTONS WAY NE, MARIETTA, GA 30062
This overflow resulted from: SOLIDS
Resulting in a wastewater discharge into: TRIBUTARY TO WILLEO CREEK
The volume of the overflow was estimated at: 2,500 Gallons
The Water System was notified at: Mar 25, 2025, 1:15 PM
The overflow was stopped at: Mar 25, 2025, 3:20 PM

Corrective action taken to reduce effects of the overflow include the following:

After using the jet machine to unstop the sewer line, the crew cleaned up solids, spread lime on the affected area and spread enzymes in the waterway.

Field Observation:

Upon arrival, the crew observed a 6-inch cleanout spilling with an unsecured lid. The escaping sewage left a 5-foot by 40-foot trail, entering a tributary to Willeo Creek. During their time on-site, no fish kills were observed.

For more information on this notification, contact our System Maintenance Division Monday - Friday, 7:00 a.m. to 3:30 p.m. at 770-419-6351.
