Collecting Feedback: Proposed Bridge Replacement: Bells Ferry Road over Noonday Creek

Proposed Project (P.I. No. 0020067): Georgia DOT and Cobb County DOT propose to replace the existing Bells Ferry Bridge over Noonday Creek with a new structure to accommodate two through lanes with a 14-ft median and provide future connectivity to the Noonday Creek Trail. The construction of the new bridge would be staged so that no off-site detour would be required. Georgia DOT is seeking feedback about the proposed project. Please visit Georgia DOT's website noted below to review project information and provide your comments virtually.

Outreach Webpage:

www.dot.ga.gov/GDOT/Pages/PublicOutreach.aspx

On the Above Webpage: Scroll to the bottom of the page and search for this project (PI# 0020067). Click "See Details" to view the proposed project design with an opportunity to comment on the project. Scanning the QR code below will take you directly to the project website.

Comment Period Closes: 7/25/2025
