It is the intention of the Florida Buy State Cooperative Purchasing program to establish a contract available for school districts and other eligible users for electric vehicle charging stations, supplies, and related services. [Click here for RFP documents](#)

Q: Hey Tori, I'm just checking out your RFP for PAEC Florida Buy/ EV Charging stations. I'm scanning through the RFP and it looks like you want the supplier to own and operate the stations? Is that the case? We can provide a quote for stations at a less than market price for ChargePoint and multiple other suppliers. We have been installing stations for over 10 years and in fact installed the first ever station in New York state. We have a rep in Florida, I can set you up with for a site visit. We would just like a little information on what exactly you are looking for and where specifically the stations will be installed.

Hey again Tori, to expand on my previous email, we will be able to supply, install, educate and even assist with incentive and rebate applications on all levels and manufacturers of EV Chargers. Again, we have discounts on all major charger brands and would be able to provide high quality prices. I can connect you with our rep in Florida with a little more info on what you are looking for.

your question. The nature of an RFP (Request for
more the different options presented by Respondents. All
valuated and scored accordingly. The essence of the RFP is
n 1 under E.

ask a clarifying question for the RFP-21-20-Electric-Vehicles-
Stations-Supplies-and-Related-Services.

Would the charging stations requested be for public use?

A: Yes. Referenced in the first paragraph on page 1: “It is the intention of the
Florida Buy State Cooperative Purchasing program to establish a contract
available for school districts and other eligible users for electric vehicle
charging stations, supplies, and related services.”

21-21 Two-Way Radios, Communication Products, Related Equipment and **Installation Services:**

It is the intention of the Florida Buy State Cooperative Purchasing program to establish a contract available for school districts and other eligible users for two-way radios, related equipment, and installation services. While the solicitation is seeking proposals for two-way radio communications solutions, other emergency technologies may be offered providing the Respondent can also provide the two-way communications platforms. The RFP is **not** seeking a crisis management solution independent of the other items outlined in the specifications. [Click here for RFP documents](#)
