[MESH TASK CHAIR]

COOL & MODERN

The primary benefit that mesh chairs offer is ventilation. The mesh design on the chair's back enables airflow along the back, helping to keep cool as you sit. Fully upholstered chairs trap heat coming off a person's body along their back. Crossway Collection chairs have a modern look, thanks to their slim profiles. They are minimalist in appearance and furnishing an office with them helps to create a feeling that the office is on the cutting edge.
