All Day Comfort In The Office

EXTRA ROOM FOR COMFORT

The Ryde Big & Tall is a heavy-duty, mesh chair perfect for any person needing some extra space. The flip arm allows one to get in and out of the chair and push the chair close to the desk. It boasts a 400 pound weight capacity to ensure a comfortable sitting experience for a broad range of body types. Its seat is elegantly upholstered in black fabric and features high density foam and spring pack construction for added comfort. The gray accented mesh back allows the cushion to breathe, preventing moisture build up. Featuring adjustable lumbar for the perfect support. All of this sits atop a large 27" steel base with five, large heavy-duty casters.
