ELEVATE YOUR COMFORT LEVEL

This armless mesh back task stool from OfficeSource® is no less than a great seating alternative. It is designed to offer a comfortable seating experience to the user, regardless of where you want to use it. You can place this stool in a break room, in computer labs at schools, at the reception counter or anywhere else. To elevate the comfort levels, this stool comes with a mesh back. The breathable mesh makes seating far more comfortable. It also has a foot ring attached to the elegant titanium steel base. You can easily adjust the height of the seat to your preference. Choose from 13 seat color options to create the look you want.

THOUGHTFULLY DESIGNED

Ensuring the comfort of each member of the team is an essential part of keeping business moving in the right direction. This comfortable and thoughtfully designed office chair is adjustable so that each person can get just the right fit for those long hours at their desks. The mesh back of the chair ensures breathability, while the height and width adjustable arms will allow for a comfortable seat. The casters make it easy to move the chair around the office, and can help to ensure productivity levels are kept at peak levels.
