

Data Science Instructor

Part-time, Remote

Cognitir is a fast-growing, global education technology company that helps **professionals** and **students** obtain in-demand tech skills such as programming and data science so that they can become more data-driven and efficient in their jobs.

Cognitir is looking to add a rockstar **data science instructor** to its fast-growing team. In this role, you will **teach** programming-based data science courses at **world-class universities** such as MIT & London Business School and well-known companies around the world.

You may also have opportunities to spearhead and shape Cognitir's future course offerings and products.

BENEFITS:

- **Learn and master** new programming and data science topics since you will be teaching them during Cognitir courses
- Build your **professional brand**
- Build your global **network of the most powerful decision-makers** in various companies and universities
- Build **expert** public speaking, communication, and leadership skills
- Market your **projects** at universities & corporations and in front of potential investors
- **Travel** and see the world via teaching engagements (after the COVID-19 pandemic is behind us)
- Earn very competitive **wages**, including **per seminar bonuses**

KEY RESPONSIBILITIES:

- **Lead live**, programming-based **data science** courses for students and professionals. Seminars are held at universities, corporations, or conference centers. Cognitir **does not have a minimum required commitment**, but most instructors teach **at least once or twice a month**
- **Identify** new product and market opportunities for Cognitir

REQUIREMENTS:

- Solid understanding of programming languages such as **Python, R, or Matlab**. Prior experience with one of these or a similar language is a must
- Excellent **communication**, public speaking, and organizational skills
- Strong background in **statistics** and **mathematics**
- Experience solving real-world problems using **data science**
- Demonstrated **attention to detail**
- US-based instructors need **permanent US work authorization**

PREFERRED:

- Familiarity with using and/or contributing to **Python's data science libraries**
- Experience **completing data science projects** in business and/or finance environments
- Previous **teaching** and/or tutoring experiences

Are you **interested**? Please send us your **resume** and **one paragraph highlighting why you think you would succeed as a Cognitir instructor** to careers@cognitir.com.
