

# Data Science Instructor

*Part-time*

**Cognitir** is a global training company that provides **programming** and **data science** training to **business & finance** professionals and **students** around the world.

*Cognitir is looking for a **data science instructor** to join its fast-growing team. Do you have a solid background in **data science**? Do you enjoy applying data science to solve **business problems**? Do you enjoy teaching, meeting new people, and traveling? If the answer is yes, **read on!***

## **BENEFITS:**

- **Teach** programming-based data science topics at **world-class universities** (i.e., MIT, UPenn, NYU, Columbia University, University of Chicago, Northwestern University, University of Michigan, Ohio State University, UCLA, USC, London Business School, HEC Paris, University of Western Ontario, etc.) and organizations around the world
- **Learn and master** new programming and data science topics since you will be teaching them
- Build your **personal brand** as a data scientist / engineer
- Build a powerful, global **network of decision-makers** in various companies and organizations. This is a way to **boost recruiting prospects** for internships and full-time jobs.
- Build **expert** public speaking, communication, and leadership **skills**
- Market your academic or professional technical & business **projects** at universities and corporations
- **Travel** and see the world via teaching engagements
- Become part of a **fast-growing**, global startup
- Help create **new courses** if that is something you are interested in
- Earn very competitive **wages**, including **per seminar bonuses**

## **KEY RESPONSIBILITIES:**

- **Lead** Cognitir **live**, programming-based **data science** courses for university students and professionals. Seminars are held at the university / corporation or at a conference center. Most university seminars are held on **weekends**

while corporate seminars are usually held during the week. Cognitir **does not have a minimum required commitment**, but most instructors teach, on average, **at least once a month**

- Develop a thorough understanding of our products, markets, and customers and **identify** new product and market opportunities for Cognitir

### **REQUIREMENTS:**

- Excellent **communication**, public speaking, and organizational skills
- Strong background in **statistics** and mathematics
- Solid understanding of programming languages such as **Python, R, or Matlab** (prior experience with one of these or similar languages is a must)
- Experience solving real-world problems using **data science**
- Demonstrated **attention to detail**
- Willingness and ability to **travel** to seminars (all travel costs are covered by Cognitir)
- Authorization to work in the **US**

### **BONUS:**

- Familiarity with using and/or contributing to **Python's data science libraries**
- Experience **completing data science projects** in business or technical environments
- Previous **teaching** and/or tutoring experiences

Are you **interested**? Send your **cover letter** and **resume** to [david@cognitir.com](mailto:david@cognitir.com).
