ABOUT THE NCEA**HISTORY**

In 1998, Equestrian was identified and adopted by the National Collegiate Athletic Association (NCAA) and the Committee on Women's Athletics (CWA) as an emerging sport for women at the Division I and II and III levels. Currently, there are 18 Division I and four Division II programs sponsoring equestrian.

The National Collegiate Equestrian Association (NCEA), a non-profit corporation, was created as a governing body to advance the sport of equestrian. The NCEA is responsible for the development and administration of equestrian rules and guidelines. Equestrian is subject to all NCAA policies and procedures in the same manner as other sports.

The NCEA developed sub-committees for areas critical to the advancement of equestrian. These sub-committees consist of coaches and administrators from member institutions. Coaches and administrators are invited to serve on any of the various NCEA Committees of their choice. The committees include but are not limited to: Emerging Sports, Competition, Promotions, Sponsorship, Selection, and Championship. Each committee is charged with helping to progress equestrian to championship sport status within the NCAA. Additionally, liaisons from the United States Equestrian Federation (USEF) and the American Quarter Horse Association (AQHA) interact with and provide input to these committees and the NCEA Executive Committee.

MISSION

The NCEA, in concert with the mission and vision of the NCAA, is committed to providing collegiate opportunities for female equestrian student-athletes to compete at the highest level, while embracing equity, diversity and promoting academic and competitive excellence.

VISION

To be recognized globally as the premier level of competition for elite female collegiate equestrian student-athletes.

COMPETITION FORMAT

The National Collegiate Equestrian Association tests five riders, in up to four events, from each team in head to head competitions. Five horses are selected for each event. Each rider is paired with one of the five horses in a random draw before the competition. She is able to watch the horse warm up and receives four minutes to practice on her assigned mount before competing. Riders from opposing teams compete on the same horse in the head-to-head competition. Each rider receives a score, and the rider with the highest score receives one point for her team. In NCEA competition, the level of difficulty is demonstrated by the accuracy of the pattern and how the competitor uses the horse that she draws to the best of her ability.

Jumping Seat Fences - The judges evaluate the rider's position, consistency on course, smoothness, flow from jump to jump, the number of strides (steps taken by the horse) in a line and the rider's plan to complete the course. Scoring for the event is out of a perfect score of 100.

Jumping Seat Flat - The riders have to perform a flat test on their horses in a 40 x 20 meter arena. The test consists of nine movements to be judged on accuracy, smoothness and overall position of the rider. Each movement receives a score from 1-10. The 10th score judges the position and seat of the rider and the correctness and effectiveness of her aids. The score is out of a perfect score of 100.

Western Horsemanship - This event is designed to evaluate the rider's ability to execute a prescribed set of maneuvers with precision and smoothness while maintaining a balanced, functional and fundamentally correct body position. The ideal horsemanship pattern consists of seven to nine maneuvers and is extremely precise with the rider and horse working in complete unison, executing each maneuver with subtle aids and cues. Exhibitors are scored for each sequence of maneuvers with a -1.5 to +1.5 score for each maneuver with a base score beginning at 70.

Western Reining - This is a class based on set patterns and a precise scoring system. Within these patterns the horses' and riders' athletic abilities are tested in a series of maneuvers including spins, stops, flying lead changes and circles with changes in size and speed. In collegiate competition, the rider must perform one of the set National Reining Horse Association (NHRA) patterns. There are a total of eight parts to a reining test with each individual maneuver judged from -1.5 to +1.5 with a base score beginning at 70.

ABOUT THE NCEA

KEY TERMS

Aids - A rider communicates to her horse through leg and rein aids.

Combination - A series of jumps set one to two strides apart from one another.

Course - A predetermined series of 8-12 jumps that must be completed in order without major penalty.

Crop - A short whip used only as an aid to reinforce the rider's leg.

Diagonals - The correct posting, up/down motion, of the rider in sequence with diagonal movement of the horse's legs at the trot.

Equitation - In riding competitions, this indicates that riders are being judged on their ability to control the horse while maintaining the correct riding position.

Fences - An individual performance where each rider shows a horse over 8-12 jumps approximately three feet high. Riders are judged on their ability to position the horse correctly at the jumps and avoid interfering with the horse's balance, while maintaining the correct riding position and producing a smooth, polished performance.

Figure Eight - Two circles connected by a change of direction, most often seen in Reining patterns.

Gaits - Starting from slowest to fastest, gaits include the walk, jog, trot, lope, canter and gallop. Riders may be asked to vary each gait by shortening or lengthening the horse's stride.

Halt - The command for stop.

Horsemanship - Western riding judged on maintaining correct position and controlling the horse in a pattern.

Irons - The English stirrups used in riding.

Leads - They are determined at the canter/lope by which front foot is leading. Correct leads have the inside foreleg reaching furthest.

Lead Change - Done at the canter/lope to change which front foot is leading.

Natural Aids - Body signals from the seat, legs, hands and voice to communicate commands to the horse, all the while appearing comfortable, relaxed and balanced. These signals should be subtle or imperceptible to the judge and spectators and exaggerated shifting of the rider's weight is not desirable. The resulting performance shown by the horse is not to be considered more important than the methods used by the rider in obtaining them.

Reining - Western riders perform an assigned pattern from memory, demonstrating a variety of stops, turns and figures at various speeds. The emphasis is on precision and technical application of the rider's ability to handle unfamiliar horses.

Roll Back - A turn performed in Equitation Over Fences to show control of the horse and rider's ability to maintain a position throughout a turn. In Western Reining, a rollback is a 180-degree pivot out of a sliding stop and immediately loping off out of the turn without stopping or breaking gait.

Sliding Stop - A stop in which the horse balances on the back feet while continuing to move the front feet.

Striding - A single coordinated movement of the four legs of a horse or other animal completed when the legs return to their initial relative position. In the jumping seat fence classes, proper striding between two jumps in a line is required.

Tack - The equipment worn by the horse (saddle, bridle, etc.).

Two-Point Position - Performed in practice to learn the proper leg position, balance and strength. The position requires the body to be positioned forward just out of the saddle. This is the forward position used over fences.

Walk, Jog, Lope - In Western, these are the gaits that the horse travels in.

Walk, Trot, Canter - In English, these are the gaits that the horse travels in.

Warm-Ups - Practice time before the classes, normally 4-5 minutes. The horses will be schooled, or prepared for competition using stretching and suppling exercises at various gaits, or practice jumps if necessary by riders who will not compete the day of the competition.

ABOUT SEC EQUESTRIAN

The Southeastern Conference adopted the sport of equestrian during the 2012-13 academic year. The four programs that currently comprise the SEC have a rich history of elite success in the sport.

Since the National Collegiate Equestrian Association began contesting a national championship in 2002, the only four programs to ever win a national championship in the sport of equestrian are the four members of the SEC: Auburn, Georgia, South Carolina and Texas A&M.

Georgia has tallied a league-leading six overall national championships, including three consecutive from 2008-10 and most recently in 2014. Auburn, the most recent national champion, has won five national titles (2006, 2011, 2012, 2016, 2018), South Carolina and Texas A&M both have three national titles.

The three schools of the formerly 12-member SEC have been contesting a yearly Southern Equestrian Championship since 2003, which in 2012-13 was replaced by the first-ever SEC Championship, involving all four schools.

The Southern Equestrian Championships were held on campus sites on a rotating basis. Georgia won a league-leading six Southern Equestrian Championship titles, while Auburn captured three and South Carolina one.

The first-ever SEC equestrian meet was held on September 9, 2012 when Georgia hosted Texas A&M in Bishop, Georgia. In March of 2013, the first-ever SEC Championship in the sport of equestrian was held in, with South Carolina taking home the inaugural trophy.
