

Boost Indoor Air Quality

Air Cleaners and Dehumidifiers Can Help!

Your home or business may look clean from a distance, but the air you breathe may contain pollutants that irritate your body and are hazardous to your health.

Ask about our \$25 rebates!

Portable air cleaners can help remove fine particles from everyday sources such as cooking, home furnishings or even household cleaners. Dehumidifiers also play an important role in maintaining healthy indoor air quality by keeping humidity levels between 30% and 50%, which can reduce mold growth and create a more comfortable space.

To help you breathe easier during the summer temps and humidity, ask us about our **\$25 rebates** for ENERGY STAR® dehumidifiers and air cleaners or visit www.brightenergysolutions.com.
