

Clean and Comfy!

Indoor air quality matters!

Keep your space clean and comfortable with portable room cleaners and dehumidifiers.

Your home or business may look clean from a distance, but the air you breathe can actually contain pollutants that are irritating to your body and hazardous to your health.

Air Cleaners and Dehumidifiers Can Help!

Portable air cleaners can effectively remove fine particles and odors that can come from cooking, home furnishings or even household cleaners.

Dehumidifiers also play a crucial role in maintaining indoor air quality. Keeping humidity levels between 30-50% can mitigate mold growth and create a more comfortable space.

Keep your home or business clean and comfy with a \$25 rebate on ENERGY STAR dehumidifiers and air cleaners.
