

Dear Health Care Provider,

Our pharmacy is dedicated to increasing vaccination rates in the communities we serve. We offer a variety of vaccines, and we are able to bill many Medicare Part D plans.

Our pharmacy has convenient hours of operation, and no appointment is needed to receive a vaccination. Our vaccinating pharmacists are trained to screen appropriate patients, administer vaccines, and stay current with Advisory Committee on Immunization Practices (ACIP) recommendations.

Recommend and Vaccinate

If your patient does not receive a recommended vaccine at your office or clinic, simply send an electronic prescription for the vaccine to our pharmacy.

While a prescription may not be required, an e-prescribed vaccine may serve as a referral.

Upon receipt of an e-prescribed vaccine, our pharmacy staff can confirm the patient's insurance coverage.

Finally, we can provide documentation of vaccination for your patient's records.

Thank you,
