

SAKER

The Saker™ sets the industry standard for one handed installation/removal, durability, and modularity on bolt action, semi auto, and full-auto hosts. MAAD (Multiple Accessory Attachment Device) Mount technology facilitates attachment via a variety of different flash hidens, muzzle brakes, and direct thread mounts. To achieve superior durability, the baffles of the Saker are made from Stellite™, an alloy that is approximately 30% stronger than the industry-standard Inconel®.

KEY PERFORMANCE FEATURES:

The MAAD™ System (Multiple Accessory Attachment Device) includes fast attach or direct thread mounting options

Compatible with SilencerCo Saker Trifecta muzzle devices (included), SilencerCo ASR™ muzzle devices, AAC 51T, YHM Y Mount, and direct thread mount options

The Hoplon Blast Baffle deflects debris and increases suppressor lifespan on short barreled rifle and full auto applications using Stellite™ (Saker 556 and Saker 556 K only)

The MAAD™ Cap System features interchangeable front caps, such as standoff and flash hider end caps which are sold separately

Warrantied down to 7” barrels for .223 Rem/5.56mm NATO, 12” barrels for .308/7.62mm NATO, and 20” barrels for magnum calibers

K 556 version is the shortest hearing safe length possible

SPECIFICATIONS

CALIBER:
5.7mm to .300 RUM

SKU:
SU248

UPC:
817272011531

MUZZLE AVERAGE dB:
123.4 (.300 BLK)
134.6 (5.56 NATO)
137.8 (.308 WIN)

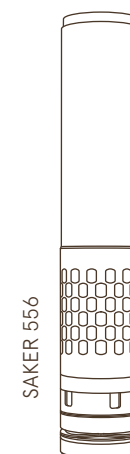

WEIGHT:
20.7 OZ

LENGTH:
7.50"

DIAMETER:
1.50"

MATERIALS:
STELLITE &
STAINLESS STEEL

MSRP:
\$1,365

SPECIFICATIONS
