

SALVO 12

The Salvo™ 12 is the only commercially-viable, modular, hearing safe shotgun silencer on the market. Designed to operate with most pump action and semi-automatic shotguns, at its full length of 12” the Salvo 12 brings sound down to 136.8 dB at the muzzle. Configurations of 6,” 8,” 10” and 12” allow the end user to customize the Salvo 12 for sporting clay, waterfowl, turkey hunting, home defense, and many other applications.

KEY PERFORMANCE FEATURES:

Attaches via choke mount to most commercially available gas operated, inertia driven, or pump action shotguns with barrels threaded for chokes

Modular design allows the user to shorten the silencer to 6”, 8”, or 10” configurations to balance size, weight, and sound requirements

Rated for wadded shells up to 3” including buckshot and slugs

Can be shortened to 8” configuration and remain hearing safe at the ear

Noticeably reduces felt recoil

Choke mounts and rod kits sold separately - choke mounts available in improved cylinder, modified, improved modified, and full

The Salvo is compatible with the following barrel and ammunition pairings:

BARREL LENGTH	AMMUNITION
10”-16”	2 3/4” SHELL, 1,350 FPS
16”+	3” SHELL, 1,550 FPS
