

SPARROW 22

The Sparrow™ 22 was designed with simplicity, durability, and user serviceability as its core objectives. It is the shortest rimfire silencer on the market and has the quietest 10 round average of any silencer in its class. Patented Multi-Part Containment (MPC™) technology facilitates ease of disassembly and reassembly – an essential function of .22LR suppressors. The internal MPC construction uses two half tubes that pull away from a monolithic core, which ensures that the Sparrow 22 will remain easy to clean after extended periods of use with notoriously dirty rimfire ammunition.

KEY PERFORMANCE FEATURES:

Shortest rimfire silencer available

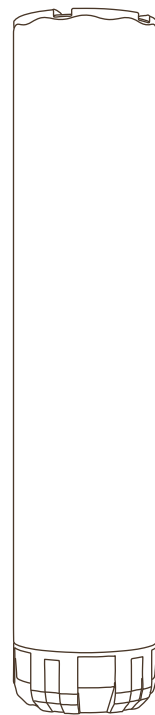

Multi-caliber compatibility and rated for full auto fire

Quietest - Reduces sound to 112.7 dB when used with .22LR

Features monolithic core and simple internal structure for easy cleaning

Cleaning recommended after 2,000 rounds – an interval unmatched in any competitors' products

Best selling rimfire silencer...ever
