## ATRO Adds Popular Suspension Kit

*Meeting the needs of our Customers: Making Repairs Simpler*

**August 7, 2018 - ST. CLAIR, MO** — With our customers’ needs in mind, ATRO Engineered Systems has add a suspension kit to their product offering – Hendrickson HN® Suspension Rebuild Kit.

“As is our custom, ATRO listens to customers’ requests regarding additions to our product line and strives to meet those needs” states Jay Moore, ATRO product manager. “We are excited when we can streamline a solution by packaging a complete repair into a time-saving kit that gets the truck back on the road.”

The Hendrickson HN® walking beam suspension features bar pin end bushing. The traditional center bushing is replaced by 2 (per side) large bolster springs. ATRO’s new KT50-25004 includes components to do one side of the truck (2 bolster springs and an auxiliary load spring). The Product Spotlight for this kit can be accessed at [ATROBUSHING.COM](http://ATROBUSHING.COM) under Resources.

ATRO provides kits for numerous heavy haul suspensions such as the following:
