

SmartPalate Options: Parents & Users

OPTION 1 **Therapy Tool**

1

Decades of research & success support this proven "Therapy Session Tool" method, where a student would get a SmartPalate mouthpiece & use it in therapy sessions.

- **Clearer Understanding**
Instantly see tongue-to-palate contact for the sounds your SLP is telling you to make
- **Eliminate Guesswork**
You & your SLP will be able to see what your tongue is doing instantly & gain new types of feedback & insight.
- **Engaging**
Its Fun! Interactive visual feedback is stimulating, & measurable progress provides positive reinforcement.
- **Self Correct**
Students can see instantly on the screen their tongue to palate contact allowing them to be able to self correct their tongue placement & see their corrections instantly.
- **Customization**
Every mouth is different in shape, depth & size. Each tongue works slightly differently. Customization of the SmartPalate & software features allow for the greatest accuracy & understanding.

OPTION 2 **Home Practice Tool**

2

Break the limitation of in-session only SmartPalate usage with the Student Membership. This option allows you to use the SmartPalate system as a "Home Practice Tool" allowing for a full single user system to be at your home, apart from the clinic/SLP's system. The Membership includes a 1-user system, a SmartPalate & an additional 12+ membership benefits such as a full coverage warranty & free software training. With 80% of CompleteSpeech Student Membership users (home practice) being released from therapy within 6-months, there is no better option than using the SmartPalate as a "Home Practice Tool."

- Full Coverage Warranty
- Customer Software Training
- Emergency Month
- Downloadable Support Docs
- Software Upgrades & Updates
- & 10 More Membership Benefits
