

New ways of learning... new ways of thinking

Hi there –

Thanks for checking out my session! I'm looking forward to presenting this high-energy, high-engagement workshop with colleagues from across the country. Because the workshop is dependent on participant interactions, it's not possible to capture it in a handout. That said, I am most happy to share my power point with you if you contact me at [kimrimbey@gmail.com](mailto:kimrimbey@gmail.com).

I hope your experiences in DC are amazing!

Best,

Kim Rimbey
