

1. Using the Box and Whiskers Plot above, write down a high test score **other than 94** that would be considered to be an outlier. Then explain how you figured out that test score would be an outlier.

My high test score outlier is _____.

I think that this would be an outlier because...

2. Using the Box and Whiskers Plot above, write down a low test score that would be considered to be an outlier. Then explain how you figured out that test score would be an outlier.

My low test score outlier is _____.

I think that this would be an outlier because...
