

Play & learn together!

Games engage ALL children and families in math thinking

Workshop led by Jeanine Brownell and Rebeca Itzkowich

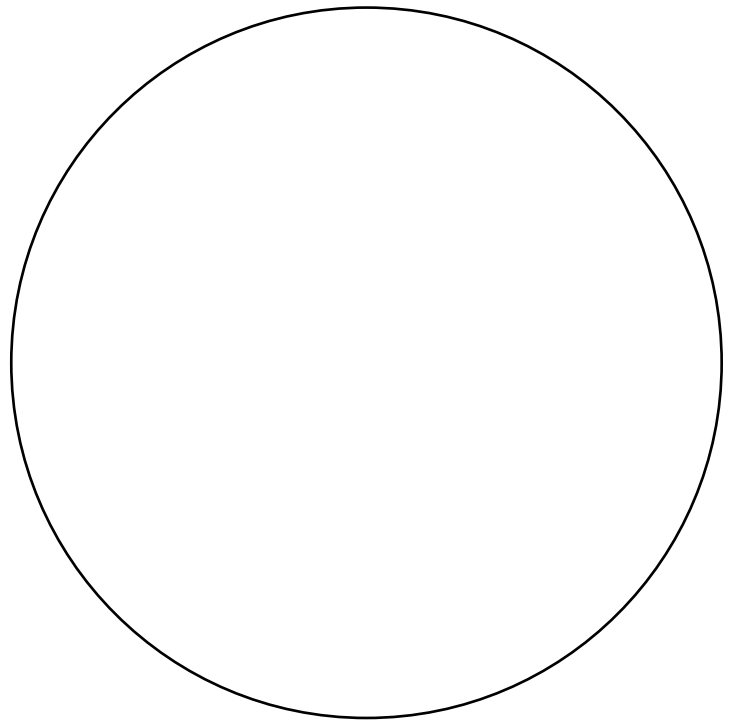

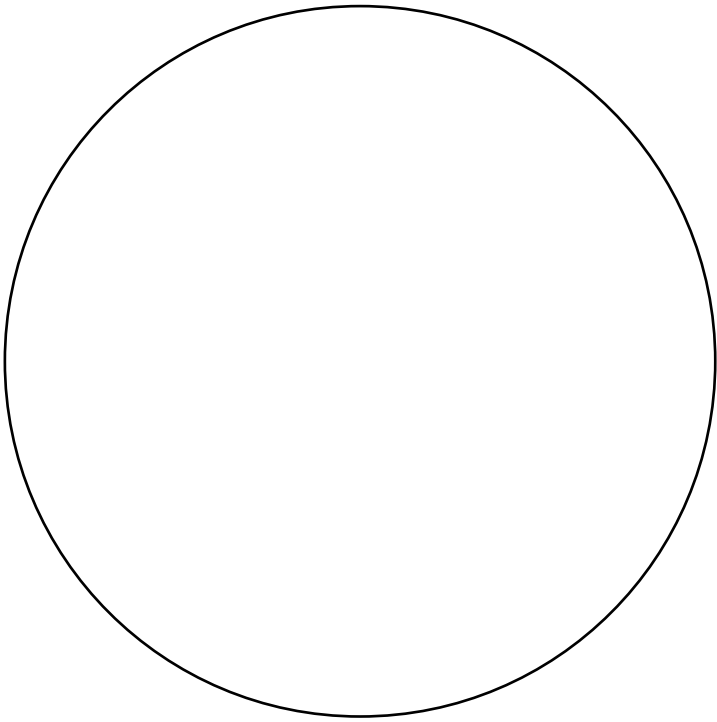

5April, 2019

Agenda

- Let's play!
 - NIM
- How do games grow mathematicians?
- What games can we play with quantity cards?
- Let's play some more!
 - 1 through 10
 - magic 10
 - match / make a number
 - salute
- Games build understanding of number relationships
 - spatial arrangements
 - one & two more / one & two less
 - benchmarks of 5 & 10
 - part-part-whole
