

## Student Self-Assessment

Create a Student Self-Assessment for the cluster A.SSE.A.1.

|   | Level 2:<br>Partial Expectations   | Level 3:<br>Approaches expectations  | Level 4:<br>Meets expectations   | Level 5:<br>Exceeds expectations   |
|---|--|--|--|--|
| <b>A-SSE.B.3</b><br><b>For Quadratics</b><br>Choose and produce an equivalent form of an expression to reveal and explain properties of the quantity represented by the expression. | I can:<br><input type="checkbox"/> identify equivalent forms of quadratic expressions. | I can:<br><input type="checkbox"/> identify equivalent forms of quadratic expressions and functions.<br><input type="checkbox"/> <b>identify the zeros of quadratic functions by inspection.</b> | I can:<br><input type="checkbox"/> identify equivalent forms of quadratic expressions and functions.<br><input type="checkbox"/> identify the zeros of quadratic functions by inspection <b>and by graphing, factoring, the quadratic formula, and completing the square.</b><br><input type="checkbox"/> <b>use equivalent forms to reveal and explain zeros, extreme values, and symmetry.</b> | I can:<br><input type="checkbox"/> identify equivalent forms of quadratic expressions and functions.<br><input type="checkbox"/> identify the zeros of quadratic functions by inspection and by graphing, factoring, the quadratic formula, and completing the square.<br><input type="checkbox"/> use equivalent forms to reveal and explain <b>key properties.</b> |
| <b>A.SSE.A.1:</b><br>Interpret expressions that represent a quantity in terms of its context.   |  |  |  |  |

## Student Self-Assessment

## Student Self-Assessment

Create a Student Self-Assessment for the [Grade 8 PARCC Level Descriptors](#) for Functions (8.F.1-1, 8.F.1-2, 8.F.2, and 8.F.3-2).

|  | Level 2:<br>Partial Expectations  | Level 3:<br>Approaches expectations   | Level 4:<br>Meets expectations   | Level 5:<br>Exceeds expectations   |
|--|---|---|--|--|
| <b>Grade 7<br/>The Number<br/>System<br/>Operations with<br/>Fractions</b> | <p>I can:</p> <ul style="list-style-type: none"> <li><input type="checkbox"/> perform operations on positive and negative rational numbers in mathematical problems.</li> <li><input type="checkbox"/> represent addition and subtraction on a horizontal or vertical number line.</li> </ul> | <p>I can:</p> <ul style="list-style-type: none"> <li><input type="checkbox"/> perform operations on positive and negative rational numbers in mathematical <b>and real-world problems</b>.</li> <li><input type="checkbox"/> represent addition and subtraction on a horizontal or vertical number line <b>and recognize situations in which opposite quantities combine to make zero</b>.</li> </ul> | <p>I can</p> <ul style="list-style-type: none"> <li><input type="checkbox"/> perform operations on positive and negative rational numbers in multi-step mathematical and real-world problems.</li> <li><input type="checkbox"/> represent addition and subtraction on a horizontal or vertical number line and recognize situations in which opposite quantities combine to make zero.</li> <li><input type="checkbox"/> <b>determine the reasonableness of a solution.</b></li> </ul> | <p>I can:</p> <ul style="list-style-type: none"> <li><input type="checkbox"/> perform operations on positive and negative rational numbers in multi-step mathematical and real-world problems.</li> <li><input type="checkbox"/> represent addition and subtraction on a horizontal or vertical number line and recognize situations in which opposite quantities combine to make zero.</li> <li><input type="checkbox"/> determine the reasonableness of a solution and <b>interpret solutions in real-world contexts</b>.</li> </ul> |
