

My name is _____ .

Text or Picture?

Directions: Read the text below about flamingos. Answer the questions. Circle if you found the information by reading the **text** or looking at the **picture**.

A flamingo is a beautiful bird that lives in large flocks near lakes. When a flamingo flies, its neck and legs almost make a straight line. Flamingos live to be about 50 years old.

The flamingo eats insects, shrimp, and tiny plants. The flamingo eats by putting its head upside-down into the water looking backwards. It filters the water with a comb-like organ on its tongue.

1. Where do flamingos live? **text** or **picture**?
2. What color is the flamingo? **text** or **picture**?
3. Do flamingos live in flocks? **text** or **picture**?
